Our Shepherd Lutheran School
Technology Vision Plan 2018-2019

ourshepherd.net

T — Teach

Our students will be instructed on appropriate use of technology and their responsibility to leave a Godly Digital Footprint in the world. We model and encourage usage that will allow students to discover the world that God created and their role in it.

E — Equip

Our students will be equipped with the skills and knowledge needed to be successful in high school, college and being a part of God's Kingdom.

C — Collaborate

Technology instruction will allow our students to work together and expand their learning environment to take learning beyond our classroom walls.

H — Hands-On

We provide hands-on opportunities that allow students to take the reigns and experience the joy of exploratory learning. Each student in Kindergarten-3rd grade will interact and learn using desktop computers and iPads. Each student in 4th-8th grade will create and collaborate using Chromebooks and desktop computers.

Content Consumers
Kindergarten-3rd Grade
- Learning Apps
- Osmo
- Block Coding
- Google Apps (2-3)

Content Creators
4th-8th Grade
- HTML & CSS Coding
- Video Creation-WeVideo
- Google Apps
- Digital Citizenship
- Digital Presentations
- 3D Design

1 SMART Board in each classroom

1:2 iPads K-4th Grade

1:2 Chromebooks 5th-8th Grade
